

Okey N. Okuzu (MBA)

Okey Okuzu is an accomplished healthcare visionary able to identify ways of improving healthcare delivery to underserved markets and populations using emerging technologies. Okey founded InStrat Global Health Solutions in 2010 to focus on Global Health Innovation by identifying and deploying technology based healthcare solutions to underserved markets using SMS and 3G wireless technologies. Okey was a Strategy and Innovation lead at Novartis Pharmaceuticals Corp. where he was responsible for identifying opportunities to innovate its strategic Managed Markets business models. Prior to Novartis, Okey spent approximately ten years in leadership positions at Pfizer Inc. Okey also had careers in investment banking and financial services organizations like JP Morgan Chase and Ecobank Transnational Incorporated and was responsible for conceptualizing, founding and running Ecobank Nigeria's investment banking subsidiary, Eco Securities Ltd.

Okey holds a Bachelor's degree in Economics from University of Lagos and an MBA from Columbia Business School and has served on the board of several non-profit organizations and associations. He is a member of the board of trustees of Oando Foundation USA and serves on the Advisory Boards of Center for Public Policy Alternatives and Trigen HealthCare Ltd.
