

Adebisi Fatai Mabadeje

**Honourable Commissioner for Science & Technology in Lagos State, Nigeria
(July 2011 – May 2015)**

Profile: Adebisi Fatai Mabadeje an MBA graduate with a first degree in Engineering and over 15 years of senior management experience in the ICT industry in Nigeria & West Africa.

As Honourable Commissioner for Science & Technology in Lagos State, Nigeria, Adebisi was responsible for developing policy, strategy and implementation plans for the growth of Science and Technology in Lagos State with particular emphasis on:

1. Stimulating innovation and economic growth by leveraging on Science and Technology to create an enabling business environment in collaboration with the private sector
2. Driving the Triple Helix Model that fosters collaboration between the State, Private Sector & Academia for research & innovation with a specific mandate to drive ideas to commercialization through partnership and collaboration
3. Driving the e-governance policy by using ICT to improve government service delivery to citizens, businesses and other tiers of government.

Above all, he is passionate about technology-based entrepreneurship and is currently involved with mentoring several start-ups that leverage on innovation, the Internet & mobile/cloud technology to address local challenges and stimulate social change.
